NEW LEAF PAPER®
ENVIRONMENTAL BENEFITS STATEMENT
of using post-consumer waste fiber vs. virgin fiber

Frontier Natural Products Coop saved the following resources by using 3900 pounds of Pioneer Offset (FSC), made with 100% recycled fiber and 100% post-consumer waste, processed chlorine free, designated Ancient Forest Friendly™ and manufactured with electricity that is offset with Green-e® certified renewable energy certificates.

Here We Grow Again

Frontier's sterilization, processing, cleaning, blending, purchasing, and quality control departments are moving to a 100,000-square-foot warehouse facility in North Liberty, Iowa, 26 miles southeast of our headquarters. We purchased the facility in November of 2010 and, after much analysis, concluded that it makes the most sense — economically and ecologically — to expand the use of the building beyond warehousing. The move should be complete by the end of June 2012.

Wholesale Website Improvements

We launched our redesigned wholesale website on March 11th. The new design features better navigation so that users can quickly find the products and information they need. Eye-catching graphics on the home page highlight new products, company news and special offers.

The much-improved layout allows us to inform customers at a glance, right on the home page, about the things that make Frontier unique — our commitment to quality, fair trade and sustainability — and the wide range of natural and organic products we offer. The easy and efficient Quick Order Form and product search system remain to facilitate order placement. We hope the increased convenience and information of the new site design will encourage even more wholesale customers to take advantage of the website's 24-7 ordering capabilities.

Simply Organic® Introduces Two New Vinaigrettes— Just in Time for Salad Season!

Simply Organic® is adding two vinaigrettes to its successful line of dry dressing mixes. **Pineapple Cilantro** (item # 18961) and **Orange Ginger** (item # 18963) Vinaigrettes fuse spices and fruits for powerful taste combinations. Low in calories (10 calories per serving), fat-free, sugar-free, and cholesterol-free, they're perfect for today's health-conscious consumer. These new products, along with our classic salad dressing mixes, can easily be merchandised using our eight-count MealSolutions™ display. Contact your sales representative for more information.

Organic Trade Association and CCOF Join Forces

The voice of organic agriculture just got a little stronger, thanks to an alliance between The Organic Trade Association (OTA) and California Certified Organic Farmers Inc. (CCOF) "As the two leading organic agriculture and trade associations in the United States, we will work together, while remaining independent organizations, to leverage the collective reach of our diverse memberships," explain Christine Bushway, OTA's Executive Director and CEO and Will Daniels, Chair of CCOF's Board of Directors. The groups will work together to increase the representation of organic producers in federal legislative advocacy. Read more about this strategic alliance.

Making Packing Peanuts More Sustainable

Frontier now packs orders using “home-made” packing peanuts. Last year we made the switch to 100% biodegradable packing peanuts from the recycled Styrofoam peanuts we had been using. Now we’ve taken another step toward sustainability by buying our own peanut-making machine.

This purchase allows us to buy starch pellets and puff them up with air to make biodegradable peanuts as we need them. Most importantly, making our own peanuts eliminates the transportation of pre-produced peanuts resulting in a yearly reduction of 2,444 gallons of fuel and 22 metric tons of emissions. And the new peanuts are cleaner, producing less dust than previous ones. Making our own packing peanuts not only helps prevent damage to our products — it protects the environment as well.

GladRags

safe • simple • smart • period

The complete line
of sustainable
menstrual options

Cups • Pads • Pantyliners
Cloth Nursing Pads • Cotton Hankies

Women are looking for products they believe in and stores they can trust. GladRags are chemical and plastic free — the healthiest option in your feminine care section. GladRags products keep billions of disposables and tons of chemicals out of the environment. Cloth pads, pantyliners, and menstrual cups are real steps toward a smaller carbon footprint.

Glycolics SO EFFECTIVE they're used in professional skin-care salons!

Reviva Labs glycolic creams are different. Instead of individual glycolic acid molecules found in other brands (which can "hit or miss" its target) our glycolics are high potency polymers...molecules linked into "strands", similar to skin's own structure. The glycolic strands interact with skin's strand structure for better absorption...and thus are better able to improve skin texture and fight sun damage. Skin-care pros consider our glycolics as one of the most effective ingredients in a skin rejuvenating program. For home use, they often recommend the 5% and 10% creams as alternates in "layering" programs UNDER some of the newer ingredients such as peptides, growth factors and antioxidants.

Glycolic Acid (5%) Night & Day Cream

For sun-damaged or aging facial skin, our all-natural polymer formula has won raves from users and skin professionals alike. Improves texture, fights wrinkles, increases "cell turnover".

UPC: 0-87992-11234-8

Glycolic Acid (10%) Night Cream

A higher potency glycolic polymer for skin conditioned to our 5% Glycolic Cream. Stronger than standard 10% or 15% glycolics, it's not only super effective for aging or sun-damaged skin, it also improves blemished skin.

UPC: 0-87992-11287-4

Glycolic Acid (5%) Eye & Throat Gel

Helps diminish wrinkled look on eye area and throat ... in precise balance for these sensitive areas. In time-release liposome.

UPC: 0-87992-11242-3

Glycolic Acid (5%) Oily Skin Gel

Excellent daytime treatment for oily or blemished skin. Light gel reduces blemish-causing bacteria, helps normalize oily skin and provides a smooth, supple feel.

UPC: 0-87992-11278-2

Glycolic Acid (2%) Facial Cleanser

Helps remove dulling, dead skin cells. Unique oil-free formula leaves skin remarkably soft.

UPC: 0-87992-11245-4

Glycolic Acid (3%) Facial Toner

Improves skin clarity, establishes proper pH balance and helps extend exfoliation benefits.

UPC: 0-87992-11241-6

NOTE: pH is important in glycolics. The pH (acid level) in our glycolic line is 3-4 pH. Above 4.5 pH, the acid level would be too weak to do much good. Yet, a number of glycolic creams on the market have a pH of 5 and above ... to avoid a "stinging" feeling. Some stinging is normal. But the base in our 5% and 10% creams contains comfrey and chamomile to help fight sensitivity.

Natrol® Omega-3 Krill Oil

Krill (*Euphausia superba*) are small crustaceans forming a vital component of the Antarctic ecosystem. These tiny crustaceans provide Omega-3 fatty acids in phospholipid form, that increase Omega-3 absorption by the body.[†]

Natrol Omega-3 Krill Oil 500mg contains 47% more Omega-3 fatty acids per softgel than the leading brand.*

Natrol Omega-3 Krill Oil 1000mg is 3x as strong as fish oil and is a clinically effective dose for cholesterol support.**

Natrol Omega-3 Krill Oil products offer powerful cardiovascular, joint and cognitive support.†

- May Reduce the Risk of Coronary Heart Disease[†]
- Support for Healthy Joints and Cognitive Function[†]
- Superior Absorption^{††}

NKO® is a trademark of Neptune Technologies & Biosciences Inc. Quebec, Canada

* Natrol Omega-3 Krill Oil contains 133 mg of Omega-3 fatty acids per 500 mg softgel compared to the leading brand, which contains 90 mg of Omega-3 fatty acids per 300 mg softgel.

** Natrol® Omega-3 Krill Oil 1000mg is 3x as strong as fish oil for helping maintain healthy levels of LDL or "bad" cholesterol already within the normal range.

†† Controlled clinical research found that NKO® has superior absorption compared to standard fish oil.

† Supportive, but not conclusive research shows that consumption of EPA and DHA Omega-3 fatty acids may reduce the risk of coronary heart disease.
